Contents Vol. 40, 1987

Preface 1
Faunal micromorphological features in moder humus of some western Canadian soils
S. Pawluk (Edmonton, Alta., Canada) 3
The humus profile — concept, class and reality
B.T. Bunting and J. Lundberg (Hamilton, Ont., Canada) 17
Micromorphological evidence of clay translocation in poorly dispersible soils
W.D. Nettleton (Lincoln, Nebr., U.S.A.), H. Eswaran (Washington, D.C., U.S.A.), C.S. Holzhey and R.E. Nelson (Lincoln, Nebr., U.S.A.) 37
Micromorphological and SEM analysis of Cretaceous–Paleogene petrosols from eastern Montana and western North Dakota
K. McSweeney (Madison, Wisc., U.S.A.) and D.E. Fastovsky (Kingston, R.I., U.S.A.) 49
The nature of weathered biotite in sand-sized fractions of Gray Luvisols (Boralfs) in Saskatchewan, Canada
S.K. Ghabru, A.R. Mermut and R.J. St. Arnaud (Saskatoon, Sask., Canada) 65
Micromorphology of seasonally wet soils on the Illinoian till plain, U.S.A.
M.D. Ransom, N.E. Smeck and J.M. Bigham (Columbus, Ohio, U.S.A.) 83
Submicroscopic model of fly ash particles
M.J. Dudas and C.J. Warren (Edmonton, Alta., Canada) 101
Image analysis of soils — present and future
R. Protz, M.J. Shipitalo (Guelph, Ont., Canada), A.R. Mermut (Saskatoon, Sask., Canada) and C.A. Fox (Ottawa, Ont., Canada) 115
Micromorphological study of surface seals developed under simulated rainfall
L.D. Norton (W. Lafayette, Ind., U.S.A.) 127
Determining Ti source and distribution within a Paleustalf by micromorphology, submicroscopy and elemental analysis
B.S. Kaup and B.J. Carter (Stillwater, Okla, U.S.A.) 141
Micromorphic record and interpretations of carbonate forms in the Rolling Plains of Texas
L.R. Drees and L.P. Wilding (College Station, Tex., U.S.A.) 157
Physical, chemical and micromorphological effects of nitrogen fertilizers on Chernozemic soils
T.B. Goh, M.J. Dudas, S. Pawluk (Edmonton, Alta., Canada) and J.T. Harapiak (Calgary, Alta., Canada) 177
Micromorphology and submicroscopy of illuviated mineral particles in boreal clay soils of Saskatchewan, Canada
G.S. Dasog, A.R. Mermut and D.F. Acton (Saskatoon, Sask., Canada) 193
Changes in the micromorphology and analytical properties of a Gray Luvisol (Cryoboralf) under a 49 year old forage stand
T.C. Martin, J.A. Robertson and S. Pawluk (Edmonton, Alta., Canada) 209
Pedogenesis of two Ultisols (Red Earth soils) on granite in Belize, Central America
G.K. Rutherford (Kingston, Ont., Canada) 225
New concepts on soil fertility and plant nutrition as illustrated by research on forest trees and stands
T. Ingestad (Uppsala, Sweden) 237
Modelling production of field crops and its requirements
C.T. de Wit and H. van Keulen (Wageningen, The Netherlands) 253
Emerging frontiers in soil science
D.R. Nielsen (Davis, Calif., U.S.A.) 267

Production of three-dimensional representations of soil macropores with a microcomputer
L.A. Mackie (Aberdeen, Great Britain) 275
Applications of the continuous flow stirred cell (CFSC) technique to adsorption of zinc, cadmium and mercury on humic acids
K. Randle and E.H. Hartmann (Birmingham, Great Britain) 281
Landform classification and soil distribution in hummocky terrain, Saskatchwan, Canada
D.J. Pennock, B.J. Zebarth and E. de Jong (Saskatoon, Sask., Canada) 297
In-situ soil organic matter studies using scanning electron microscopy and low temperature ashing
L.A. Sullivan and A.J. Koppi (Sydney, N.S.W., Australia) 317
Characteristics of soil organic matter in temperate soils by Curie-point pyrolysis–mass spectrometry, III. Transformations occurring in surface organic horizons
J.M. Bracewell and G.W. Robertson (Aberdeen, Great Britain) 333
A comparison of hydroxylamine and ammonium oxalate solutions as extractants for Al, Fe and Si from Spodosols and Spodosol-like soils in Canada
C. Wang, P.A. Schuppli and G.J. Ross (Ottawa, Ont., Canada) 345
Erratum 357
Announcements 359
Current Titles in Soil Science 361
